## Cole's are Noted for their Fine Evergreens

Cole's Evergreens give a feeling of richness to the home landscape, especially during the Winter months when the ground is covered with snow and other trees and plants have lost their foliage. Fall planting will give you this fine touch to your planting all Winter long and the Evergreens will be well established before the hot, drying suns of the next Summer.

Our stock is so large and our list of varieties so complete that we cannot begin to offer them on this circular. We invite you to visit our nurseries

and select them for yourself or, if you cannot come to our display grounds send us your list, or outline your needs and we shall be glad to make recommendations and quote you. Every type and size can be supplied from our fine stock of choice specimen plants.

Cheap, depression-spoiled evergreens are dear at any price. Avoid them. Buy Cole's thrifty, well-grown, sheared, root-pruned specimens, properly balled for shipping, and enjoy a successful planting.
